In choosing to buy a timber building from York Timber you will have the peace of mind that comes from dealing with a company that has over 85 years family experience in the timber trade. In that time we have been able to source the best timber exporters, who, together with our fully qualified staff, have helped us gain a reputation for craftsmanship and fine quality that is second to none.

# WHAT IS TANALISED TREATMENT?

'TANALISED' is a process in which our timber has been impregnated with a preservative solution under high vacuum pressure in our own in house tanalising plant. This ensures a deep penetration of the protective solution into the timber calls and encourages a longer lasting protective result against fungal decay and insect attack. This process is proven to grant a higher grade of protection than the application of just a surface coating.

# **ADDITIONAL EXTRAS**

.Window Boxes	£17.00	9 Pane Georgian Door	£99.00
Stable Door (Playhouse)	£55.00	Georgian Double Doors	£198.0

The Georgian Range garden shed are a superb building with the very best fittings available throughout. These garden sheds also feature 6'00" high eaves allowing better head room and a higher door, most competitors eaves are very low making it difficult to stand up inside their buildings. The roof is supplied with heavy duty Green Mineral felt. These shed include a well braced Mortice and Tenoned heavy duty door. The windows are glazed. you take the tanalised (pressure treated) option, then you can be assured of a maintenance free shed. Also included are antique handles and hinges, joiner

made 9 pane opening windows along

with joiner made doors.
